JOSIAH TURNER, Jr., EDITOR.

POLITICAL AFFAIRS IN THE SOUTH AND THE ADMINISTRATION.

[New York Herald.]

Political matters in the South, particularly in Tennessee, Virginia and Mississippi, are in a very muddled condition. And the administration at Washington is in about as great a muddle about them as the local politicians themselves. The most remarkable feature is that a most intense rivalry and even bitterness between the radical and conservative factions they are both for the administration. Or, perhaps, it would be better to say they are both for General Grant and cling to him as the representative man of the people and choice of the nation. This was evident in the late elections and is becoming more apparent since. The Walker party in Virginia, the Senter party in Tennessee, and the Dent party in Mississippi raised the name of the President on their banners to rally the people to their support, and the radicals in these States did the same. Yet no two parties were ever more bitterly opposed to each other, and, in some respects, were never more widely apart in their policy. The hostility of a few individuals of the conservative party to the President, as in the case of Andy Johnson, is personal and does not represent the status or wishes of parties in the South. Both the conservative and radical factions, as was said, claim and desire to represent the administration and to act in accordance with it.

The question that forces itself upon us here—and it is one which the President will be compelled to seriously consider—is, can this state of things last? Can both be administration parties and yet be so hostile in policy and feeling? It is impossible. The President must take his choice with one or the other. He cannot ride on the backs of both. No political horsemanship is equal to such a task. What, then, will General Grant do? If we go back to his antecedents, if we call to mind his conservative views when he closed up the war and wished immediate harmony between the two sections and restoration of the South, and if we may judge from his known desire for peace, we could have no hesitation in saying he will make the conservatives of the South the administration party. Nor have we any doubt that his own unbiased inclination would incline him to such a course. This, too, is undoubtedly the wisest policy; for the result of the late elections shows that neither the administration nor any other power can make the Southern people swallow radicalism. Should he, unfortunately, take the side of the radicals in the South—that is, should he place himself in hostility to the large majority of the people and public sentiment in that section—he may cause a great deal of trouble, but will not be able, with all the machinery of federal power and patronage, to make the Southern States radical. Indeed, the very effort to do so would only swell the majority against him and his policy. We have an example of what would take place in the meddling of the radical members of his Cabinet in the Tennessee election. The interference of Boutwell and Creswell only increased the vote against Stokes, the radical candidate for Governor.

We admit that the President is in a very trying situation. Some of his Cabinet are incurable radicals, and will use all their influence over him and his policy in their efforts to sustain their faction in the South, while the rest are indifferent or mere political nonentities. There is no unity, and, as a consequence, the administration is at sea floundering about among dangerous breakers. Should he listen to the defeated radicals in Tennessee and Virginia, and to the same party in Mississippi, and endeavor to overrule the expression of the public voice, his great popularity cannot save him. The people of the North, even, would not sustain him in such a course. Military domination, as in the case of General Canby in Virginia, and General Ames, of Mississippi, who has just suspended the writ of *habeas corpus*, cannot be tolerated by the mass of the American people. They want peace, restoration, and the war closed up. They are tired and disgusted with the pretences of reconstruction for party purposes, and the substitution of military rule for civil government. Any fresh attempt to defeat the popular will in the South by the action of the administration or the Radical party would produce a terrible conservative reaction.

What, then, is General Grant to do? Follow the instincts of his own nature and good sense and throw overboard the radical marplots in his Cabinet. Yes, let him remodel his Cabinet and make a new one of able conservative men who will be united in policy and act in accordance with his own views. The people are with him now and they earnestly desire to support him all through. He was and still is the hope of the republic But the present is a critical time, and his future popularity will depend upon the action he may take in the political affairs of the South and the choice he may make between the parties there. There is no evading this alternative. Nor ought the President to hesitate. He is the master of the political situation. Should he take the ultra radical ground that Boutwell and Creswell in his Cabinet and the extreme radicals of Congress urge he will plunge his administration into a sea of trouble.—Should he take a conservative course he will carry the bulk of the republican party as well as all the conservative people both South and North with him; for they have nowhere else to go, and he will continue to hold the politics and destiny of the republic in his hands. Will General Grant see his opportunity and what the people expect of him? That is the question. It cannot be deferred. The time has come for decision, and it must be decided now one way or the other.

Apropos of the ducal munificence of his Highness of Edinburgh, who made shabby presents to the colonists of Victoria and New South Wales and then charged them to the imperial account, a story may be told showing how these things are managed in Kiel. The King of Prussia in his recent "progress" through his dominions, went to that city, and was breakfasted by the officers of the municipality, who generously placed the cost to the popular account. But the good people of the city, though acknowledging the honor, "could not see this," so they refused to pay, and required the magnificent Aldermen to settle the bill. The matter was finally referred to the Ministry of the Interior, which sided with the peasants. The precedent might be a useful one in the case of the young English prince.

DOTY'S WASHING MACHINE,

LATELY MUCH IMPROVED,

AND THE NEW

UNIVERSAL CLOTHES WRINGER.

Improved with ROWELL'S PATENT DOUBLE COGWHEELS, and the PATENT STOP, are now unquestionably far superior to any apparatus for washing clothes ever invented, and will save their cost twice a year, by saving labor and clothes.

Those who have used them give testimony as follows:

"We like our machine much; could not be persuaded to do without it, and with the aid of Doty, we feel that we are masters of the position."—*Rev. L. Scott, Bishop M. E. Church.*

"It is worth one dollar a week in any family."—*N. Y. Tribune.*

"In the laundry of my house there is a perpetual thanksgiving on Mondays for the invention."—*Rev. Theodore L. Cuyler.*

"I heartily commend it to economists of time, money, and contentment."—*Rev. Dr. Bellows.*

"Every week has given it a stronger hold upon the affections of the inmates of the laundry."—*N. Y. Observer.*

"Friend Doty—Your last improvement of your Washing Machine is a complete success. I assure you 'our machine,' after a year's use, is thought more of to-day than ever, and would not be parted with under any circumstances."—*Solon Robinson.*

"Your Washing Machine has been in daily use in our laundry and the housekeeper expresses herself as highly pleased with it. It certainly accomplishes a greater amount of work, with less labor, and does not wear the clothes near so much as the old fashioned wareh-board. By using it one laundress is dispensed with."—*Wm. M. F. Round, Superintendent of Delaval Department of St. Catherine's Nursery, N. Y. City.*

PRICES.—A Fair Offer.

Send the retail price Washer $14, Extra Wringer $9 and we will forward either or both machines, free of freight, to places where no one is selling; and so sure are we they will be liked, that we agree to refund the money if any one wishes to return the machines, free of freight, after a month's trial, according to directions.

No husband, father or brother should permit the drudgery of washing with the hands, fifty-two days in the year, when it can be done better, more expeditiously, with less labor, and no injury to the garments, by a Doty Clothes Washer, and a Universal Wringer.

Canvassers with exclusive right of sale make money fast selling them.

Sold by dealers generally, to whom liberal discounts are made.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

TUESDAY, AUGUST 31, 1869.

HOW STANDS THE MATTER?

The unsettled condition of the country growing out of the late civil war, and consequent retrogression of our industrial pursuits; together with the political heart-burnings, criminations and recriminations, growing out of feelings engendered by the strife of arms, and, as we believe, by a tyrannical use of power on the part of those in authority, exercised for the humiliation and oppression of great numbers of those who, by the circumstances surrounding them, were unable to help themselves, have awakened in the hearts of many moderate men the desire to see a check put to this state of affairs, and peace, harmony and prosperity, restored to the country, and labor again securing its legitimate reward.

No one in this broad land can more heartily sympathise with any plan to carry this desire into execution than we do. We, and those in whose behalf we have labored, have been the sufferers by the unjust and oppressive course of policy that has been adopted, and up to this time strictly adhered to by those into whose hands has been placed the destiny of the South and her people. We could not, therefore, do otherwise than rejoice at the prospect of any change which promised relief to the thousands who have up to this time been the subjects of unjust proscription; who have been maligned, and misrepresented, suspicioned and traduced, and for the sake of selfish ends and dishonest purposes, by men who either had no feelings nor interests in common with those they have thus abused, or who had old grudges they wished to gratify.

Hence we rejoiced at the apparent dawning of a better state of things, shadowed forth in the recent elections in Virginia and Tennessee, and received as the harbinger of "the good time coming" every where. The people are in the movement, and we believe it will ultimately succeed. At one time the country had reason to believe the movement had the sanction and would meet the co-operation of President Grant and his administration, and this added strength to the hopes of those who desired to witness the promised political millenium.

The concessions necessary to bring about the anxiously hoped-for day of peace and restoration of tranquility, must be permanent; the promises and professions of those who advocate the desirable consummation, must be sincere. Else, instead of good resulting to the country—instead of peace and good will being restored; hatred, opposition more deadly, will be engendered and the last state will be worse than the first.

We must confess that the prospect, to us, is not so inviting as it seems to be to some. We cannot help fearing that there is not so much reality as talk, with those who seem so willing to accept the coming situation. There are cut croppings that indicate trickery on the part of some, whose co operation is most necessary to make the movement effective. The administration seems to have changed fronts since the election in Virginia. Canby seems to be left at liberty to undo all that was effected towards allaying the disturbing elements in Virginia. No prominent leader in Congress has signified, by speech, by letter, or by private conversation, any sympathy with that branch of the Republican party who are disposed to a moderate and conservative policy.

In conversation with a prominent Republican of Mississippi, it will be remembered, President Grant declared that it seemed *"impossible for loyal men to accept sincerely and so suddenly, views and opinions which they resisted at such cost."* His conversation with Tarbell shows, throughout, that the President is absolutely opposed to any concession, amelioration or modification of the reconstruction laws as applied to the Southern States, and that any further amnesty, or the removal of political disabilities will receive no countenance from him, except to those who may receive it as a reward of service and allegiance to the *party*; just as it has been all along in the past.

A prominent Republican paper now before us, speaks of the election of Walker in Virginia, and of Senter, in Tennessee, as the result of "Democratic hypocrisy and deception," and says that the movement in Mississippi is of the same character, and has been discountenanced by Grant.

Now, it is very evident that the people of Virginia and Tennessee, meant just what they said, when they went into the canvas in their respective States under the banner of "universal suffrage and universal amnesty," and the people everywhere caught at the same idea and looked upon the result, as the beginning of a new and better day; especially as it was thought in the case of Virginia, at least, that the movement had the concurrence of the administration at Washington. But the recent course of the President, and the reticence of leading Republicans on the subject, look something like holding the word of promise to the ear and breaking it to the hope. It is evident to us, that there is to be no change in the policy of the Republican party in regard to amnesty, or the test-oath, so far as the President and Congress are concerned, while the same men hold sway who are now in power. Subordinates may profess liberality and concession—the *Standard* and other papers may erect platforms and a great many men may get on them, but those who thus mount them are not of the right stripe.

We believe the new, liberal policy will finally prevail, but it will prevail over and in despite of the wishes of Republican leaders in the national councils, and prominent leaders of the party in the States; because they know that when the whole people speak their condemnation is sealed.

CIVILITIES AND HIGH BRED COURTESIES.

Civilities and high bred courtesies pass and ought to pass, not only among nations, but among statesmen and gentlemen. We are lead to these reflections by seeing James Harris colored walk down Fayetteville Street, by the side of Governor Holden.—We think this is the first time we have ever seen the Governor walking the streets with a "gentleman," for, in his walks, he is generally alone. He was unsparing in his abuse and slanders of the old Whigs, for twenty years; he has given his slanderous tongue and false pen the same latitude about Democrats. Every gentleman in Raleigh has been either a Democrat or a Whig, and as such, has received his share of the Governor's malignant, false and slanderous pen, and hence it is they eschew him on the streets.

The Governor and Mr. Harris have both declared that they are opposed to social equality among whites and blacks. This cozy walk side by side, cheek by jole, contradicts their declarations. How can Mr. Harris, aspiring to a seat in Congress, walking the streets with the Governor, sitting in the Halls of the capitol with the Governor's son as his equal, decline to sit at the same table with the Governor?

What excuse or apology can Mr. Harris give to his colored brethren, after winning a seat in the jury box, in the Legislative and Congressional Halls, to decline and declare himself unworthy or unfit to eat with the Governor? Mr. Harris can walk, talk, sit, stand and drink with the Governor. The logic of these social acts would seem to argue that Mr. Harris has merit enough to entitle him to eat with his Excellency. Dr. Grissom may decline to eat with Mr. Pompey Howe, but it ill-becomes the Governor to do so; but for the 80,000 negro votes the Governor would never have attained to his present place.

The negroes and carpet-baggers have been loyal to the house of Holden. If the Governor does not betray both he will not act his true character. He will first betray the carpet-baggers, because he can do so with impunity and advantage to himself. The civilities and high bred courtesies shown to the negroes on the street are so many indications that he will break with the carpet-baggers.

HOW THEY ARE TAUGHT.

A gentleman travelling in Granville county met an old negro and a boy in the road; he professed himself to be a Northern man. He asked about the prosperity of the League and the colored people. To draw them out he indulged in a little abuse of Democrats. The situation of things soon grew intolerable; the little boy, about fourteen years of age, finally closed the talk by saying he had a pretty good crop of tobacco growing, and as soon as he sold it he intended to buy a gun to shoot Paul Burton.

We have every reason to believe that such sentiments are taught by the League. We think so from the "turpentine" incediary speeches spoken in public, that in private, murder and arson would be taught and inculcated by the ignorant members of the League.

COUNTY AGRICULTURAL ASSOCIATION.—A number of the farmers of Chatham County met in Pittsborough, on Saturday last, (28th August) for the purposes of forming an Agricultural Association.

Hon. Abram Rencher was called to the Chair, and Capt. N. A. Ramsay was requested to act as Secretary.

Addresses were delivered by Messrs. A. Rencher, N. A. Ramsay, R. W. York, and Mr. Sampson, proprietor of the Model Farm, near High Point.

It was determined to take steps for the formation of a County Agricultural Society. A Committee was appointed to draft a Constitution and By-Laws for the Association, purchase grounds for the purpose of holding a County Fair, and make such other arrangements as are necessary to put the Association in working order. This Committee is to report at the next meeting, which was appointed to be held on Tuesday of next Superior Court, of Chatham County which begins on the third Monday in November.

Chatham is a live County, educationally agriculturally, and otherwise.

A PICTURE.—The Newbern *Times*, an insider and therefore ought to know, draws the following picture of a "few men in power," in this State, and "men high in power in league with them:"

"There is reason to fear that there are a few men in power in this State, monied men, who are working against the principles we have set forth above, and are spending money to build up another State to the detriment of our own. They care nothing for *any* State so long as their pockets are filled. They speculate for their own private ends, and men high in office are in league with them. Be careful how you encourage these men, or you may be found to be aiding this clique, this "Ring." Steer clear of them, be independent, be honest; they would ruin the State for their own aggrandizement. See to it that their purposes are broken off."

An exchange says: "A good cow well fed gives more milk than a dozen half starved. The same may be said of hogs."—*Old North State.*

You allude to *female* hogs, don't you neighbor?

THE MISSISSIPPI SATRAP.

General Ames, the military satrap of Mississippi, has, since his return from his interview with President Grant at Long Branch, applied himself to the work of Radical tyranny throughout his satrapy more earnestly than ever. He seemed, before his consultation with Grant, to be as bad as he knew how to be, but he has learned to be worse since. The Secretary of the Treasury and the Postmaster General have removed all the Conservative civil officers in Mississippi employed in their respective departments of the public service, and such as they could not remove are removed by the satrap. He has ejected the Secretary of State and several of the principal Judges and other State officers by military fiat, and for no other reason than their unwillingness to devote themselves to the Radical cause. He has ejected them and made military appointments in their places. Such outrages are without parallel anywhere, and language is scarcely adequate to the proper denunciation of them. President Jackson, in his first message to Congress, denounced the bringing of the power and patronage of the Federal Government "into conflict with the freedom of elections," but never has this abuse been practiced to a tenth part of the extent to which it is now practiced.

President Grant, at this time, is evidently of the lowest order of ultra Radicals. He is on the vulgar level of Ben. Butler. He stands where Thad. Stevens, if alive, would stand. He strips himself of the ragged gauze of quasi conservatism that he has sometimes worn. The government of the sword is as absolute now as it when the full torrent of civil war was running red through the country. Well, Grant may do his worst, and his satrap may do his worst, and his party may do his worst, but yet we will believe, at least until events shall demonstrate the contrary, that Mississippi and Texas will stand, on the day of their elections, as erect as pyramids.

We may here say a word or two about another outrage perpetrated by the Mississippi satrap. The Legislature of that State appropriated a sum of money to provide crippled soldiers in the State with artificial limbs, and exempt them from the poll-tax of the State, making no discrimination as to the side on which they fought in the war. Gen. Ames, with a full share of that humanity which distinguishes Grant's satraps generally, has forbidden the use of the money for the limbs, and ordered that the cripples shall pay the poll-tax. He deserves, that as much timber as would supply material for all the prohibited legs and arms, should be made into stout cudgels for his shoulders.—*Louisville Courier Journal.*

GENERAL NEWS.

Thirty-two thousand acres of land in Kansas have been sold to the representatives of an English colony of 1,200 families. It is mostly rolling prairie land and is in one body, lying from four to twenty miles from the line of the Kansas Pacific Railroad northwest of Junction City. The average price paid was about $3 75 per acre.—Eighteen members of the colony have already arrived and commenced the improvement of the lands. The colony is composed of a good class of emigrants, and each member is represented to have sufficient means to stock his farm. Most of them will reach Kansas the coming fall and spring.

A "lady" in New Bedford, Mass., recently bought a pair of white gloves, to be returned in case they did not suit. They were returned as not suiting, when it was discovered that they had been used to decorate the hands of a corpse, and removed before the lid of the coffin was screwed down.

As Louis Phillippe, when he believed himself to be at the hight of his greatness and prosperity, brought about the Spanish marriage which proved so disastrous to him, so the Empress Eugenie is at the present juncture trying to marry her niece, the young Duchess of Alba, to the son of the ex-Queen of Spain, who she still firmly believes will reascend the Castillian throne at an early day.

Bolineau, a Frenchman, has addressed to the White House at Washington a letter requesting the President of the United States to issue a charter authorizing him to establish in New York city a gambling house, to be regularly licensed and placed under the surveillance of the police, to contribute a portion of its profits to the government and to be managed in all respects like the gambling houses of Baden Baden and Wiesbaden.

Thomas R. Small, negro, one of the Aldermen of Charleston, and John R. Wright, negro, member of the Legislature, both claim to be rightful sexton of a colored cemetery in Charleston. A few days since, while Wright was engaged in preparing a grave, Small came up, and, after some words, seized a long iron rod, used by grave diggers, called a "sounding rod," and gave Wright a severe beating.

The negro delegates to the Labor Convention at Philadelphia opposed the admission of Miss Anthony as a delegate. The negroes evidently considered themselves superior to white women. No wonder; the Radicals have educated them to this belief.

Baron and Baroness Lemme, (nee Nellie Throckmorton,) of Fifth avenue, will sail on Saturday next for Europe. They will return to New York during the winter of 1870, and give a series of elegant receptions at Delmonico's.

Fanny Fern says: "If one-half of the girls knew the previous lives of the men they marry, the list of old maids would be wonderfully increased." Whereupon the Boston *Post* asks: "If the men knew what their future lives were to be, wouldn't it increase the list of old maids still farther?"

It is stated that the Red Sulphur Springs, Va., have been sold to a Mr. Noble, of Louisiana, for the sum of $25,000.

From the Boston Traveller, Aug. 23.

THE MOVING OF A FREESTONE HOTEL IN BOSTON.

One of the most difficult undertakings connected with the widening of Tremont street was considered to be the moving back of Hotel Pelham, that large freestone building on the corner of Tremont and Bay'ston streets. For many days past the most careful arrangements have been making toward this end, and to-day they were completed and the building started on its course westward. The entire basement has been laid bare, the foundations slightly raised, and large numbers of small iron rollers inserted under them, and these rollers will move under a stout foundation wall with straps of iron bound to its top.—The moving force is some sixty or seventy jack screws, turned by human power and capable of moving ten hundred thousand tons, which is the weight of the building.

It is expected, however, that only eighty per cent. of this force will be required to overcome the friction, and when once started that fifty per cent. will be found sufficient. Last evening the perfection of the arrangements was tested, and the immense structure moved nearly an inch, but the power was found inadequate, and this morning more screws were added. About eight o'clock all was in readiness to put it in motion in earnest. Some fourteen workmen were detailed to work the screws, and others were stationed at all points in the basement to watch the rollers and for other purposes. At the sound of a whistle from the superintendent one turn of the screws was given and then the effect noted. The whistle again sounded, another turn made, and then came another pause. This was continued for about half an hour, and at the end of that time the building was moved an inch and a little over a half.

The rollers have to be arranged every two inches that the building is moved, and about nine o'clock a stop was made for that purpose. All seems working well, and no doubt of the success of the undertaking exists in the minds of those connected with it. The occupants of the building are engaged in their usual avocations. Large crowds have watched the operations of the workmen all the forenoon, and a squad of police are on hand to maintain order and keep citizens from straying into dangerous latitude.

At noon to-day the building had been moved nineteen inches, the length of the screws. If these are replaced in season it is expected that the above distance will be increased to three feet by night fall.

IS A JEWISH PRIEST A MINISTER OF THE GOSPEL?—A singular and rather an interesting question came up before the Hustings Court of Richmond, Va., at its recent session. It is thus alluded to in the Richmond *Enquirer*:

"The code of 1860 requires that before any marriage can be solemnized a minister of the gospel must produce to the court proof of his ordination as such, &c., and give bond in the penalty of $1,500, &c.—The Rev. Dr. Bettleheimer, pastor of the Jewish congregation, on the 11th instant, appeared in court for the purpose (if he could do so with propriety) of complying with this very important ordinance. His counsel, A. Moise, Jr., Esq., addressed the court on the subject.

"Mr. M. said that his client, the reverend gentleman, entertained a high respect for the laws of his adopted county and State, but he had some scruples with regard to his compliance with this law, to which he felt it his duty to call the attention of the court. Dr. Bettleheimer was not a minister of the gospel. No Israelitish priest was, or could, be called a minister of the gospel, from the simple fact that he did not recognize the New Testament, and the Old Testament was not the gospel; then to say that the reverend doctor was a minister of the gospel was to say that which was untrue, and a deception which Dr. B. would not willingly perpetrate.

"The court suggested to Mr. Moise that our law made no distinction on account of faith, and that if a Mahommedan or a Chinaman were to come here he could obtain a license to solemnize marriage. Mr. Moise replied that that would depend entirely upon whether the Mahommedan had any conscientious scruples in professing to be that which he was not. His client, Dr. B., had scruples, and would not take out license; but under the instructions of the court and under his protest, if, after stating the case to the court, the court decided that he must comply with the law, then his client would feel no moral accountability for having done so.

"As much as his client respected the laws of the land, there was a higher law and a higher court which he was bound to keep in view. The truth was that the law, while bearing the semblance of liberality, was really proscriptive, illiberal and intolerant, unworthy the enlightened spirit of the age, for the framers of it must have known that the Israelite does not recognize the new law, the gospel, but still followed the Mosaic dispensation.

"The court, after consulting Col. Jenkins, the city attorney, declared that, notwithstanding the facts, the statute was general, and intended to embrace every faith and every form of religion. Dr. Bettleheimer then took out his license and gave the security required."

The $60,000 that Mr. Peabody recently donated to Gen. Lee's College, in Virgina, is said to consist of a certain number of old State bonds, which were lost on the Arctic while in Mr. Peabody's possession and for the reissue of which he vainly petitioned the State Legislature several years ago. If this is true the donation will not be of much benefit to Washington College.

At a recent sale of Dillon's collection of autographs in London, George Washington's letter to Newenham, in which he deplores the condition of Ireland, sold for $500. GULLETT'S COTTON GIN.

ON EXHIBITION AT MY STORE, A "GULLETT'S STEEL BRUSH GIN."

The Gin is of a very superior style of workmanship, gins more Cotton in a given time than any Gin of the same number of saws; picks the seed cleaner; leaves no motes or nap; does not waste the lint by throwing it over the walls of the room where it is being ginned; does not cut the lint, but brings it out in beautiful bats.

Planters desiring Gins would do well to buy one of Gullett's, as each one is guaranteed, and if it does not have the advantages, over other Gins, named in this advertisement, after fair trial, it will be no sale.

The "Gullett Gin" has been awarded the Premium at the several STATE FAIRS of Louisiana, Alabama and Mississippi.

I am Agent for its sale and would be pleased to fill orders.

GLASS SPECTACLES,

Superior to any other in use—constructed in accordance with the science and philosophy of nature, in the peculiar form of

A CONCAVE CONVEX ELLIPSIS,

Admirably adapted to the organs of sight, and perfectly natural to the eye, affording altogether the best artificial help to the human vision ever invented. Used only by

MORRIS BERNHARDT,

SPECTACLE & OPTICAL MANUFACTURER.

THE ADVANTAGES of these Spectacles over all others are:

1. **They can be worn with perfect ease** for any length of time at one sitting, giving astonishing clearness of vision, by candle or any other artificial light, comfort to the spectacle-wearer hitherto unknown.

2. **How to select Glasses. It requires** professional guidance even when a good article is offered. Dr. Bernhardt not only has the best Glasses that can be found in the market, but carefully examines the eyes of his patients, and gives indispensable advice as to the proper selection of them.

3. **When the eyes ache or pain through** the action of a bright light, such as is reflected from the snow, sunny weather, white paper, and in reading, writing or sewing, or vivid colored bodies; these lenses, by softening the rays, effect a most agreeable sensation and give great relief.

4. **These spectacles are scientifically** adjusted to every case of defective sight with unerring accuracy, whether arising from age, strain, over work, or premature decay, by Dr Bernhardt on a new and exact principle, entirely his own, which has seldom failed to be correct.

5. **After several years of public practice,** adjusting spectacles to patients under every aspect of defective vision, as well as experience in an extensive, long established business in his Optical Stores, both here and in Europe, Dr. Bernhardt considers it a sufficient guarantee of his ability to supply such glasses as are best calculated for the assistance of imperfect sight.

6. **M. Bernhardt, to signalize himself** from the host of pretenders in his profession, with pride submits for inspection, copies of testimonials he has received from medical gentlemen of the most unquestionable respectability and talent in America; also a number of certificates from well known gentlemen of distinction who have worn his spectacles—the originals of all which he will be happy to show to those who may request it. The use of any of the following names or certificates hereunto affixed, without an actual possession of the same, would be a forgery, a capital offence, punishable by State imprisonment.

Testimony of Recommendations from Medical Gentlemen, Professors of the highest Opthalmic talent in Raleigh, N. C., and in the Union.

Raleigh, Aug 24, 1869.

I have carefully examined Prof. Bernhardt's Spectacles, and take great pleasure in recommending him to those who, having defective vision, can be made to see more clearly and distinctly by the use of glasses. He has wonderful skill in this respect. The pair he has supplied me with are of Brazilian Pebble, of most superior quality and excellent finish. They enable me to see how to read or write, at the ordinary focal distance, as clearly and distinctly as I did twenty years ago. I very cheerfully bear testimony both to the Professor's skill and to the wonderful properties of his glasses.
CHAS. E JOHNSON, M. D.

Raleigh, N. C., Aug. 24, 1869.

I take great pleasure in saying that the Glasses I have obtained (and am now using) from Dr. M. Bernhart are to me a source of greater comfort than any I have previously used; my own experience fully sustaining the testimonials of excellence and commendation which he has received from gentlemen of science, and high character, in various parts of our country.
WM. G. HILL, M. D.

Raleigh, N. C., Aug 24, 1869.

I take pleasure in stating that I have examined the glasses of M. Bernhardt, Oculist and Optician, and think they are of the best material, and constructed on scientific principles. I would advise those in need of glasses to call on him.
Very respectfully,

Raleigh, Aug. 24, 1869.

Doctor Bernhardt called at my house and exhibited to me his fine assortment of Australian Crystal Glasses, which are of a very superior quality and workmanship. I take pleasure in saying that the glasses I have obtained from Professor Bernhardt are to me a source of greater comfort than any I have previously worn and cheerfully commend them to those who may be in need of glasses.
W. H. McKEE, M. D.

Raleigh, Aug 25, 1869.

After an attentive examination of the various glasses in the possession of Dr. M. Bernhardt, accompanied with his explanation of his mode of preparing and adjusting them, it is with great pleasure I state my belief of his great skill, and of the benefit which those needing glasses must derive from his assistance.
R. S. MASON, D. D.,
Pastor Prot. Episcopal Church.

Raleigh, Aug 25, 1869.

Dr. M. Bernhardt, Oculist and Optician, has fitted me with a pair of Spectacles superior to any article of the kind I ever had before. The material is Australian Crystal, the quality of which renders vision very clear and distinct, and enables me to read and write with as much ease as I did ten or twelve years ago. His assortment of glasses is most complete and the finish apparently perfect. I take great pleasure in recommending him to all who need their sight improved.

I have examined a large number of the glasses of Prof. M. Bernhardt, and with pleasure certify to their superior excellence. I wear a pair of them and see as perfectly as I could in my youth. They are the best I ever used, and I therefore heartily recommend him to the patronage of the public.

SIR: I have made a full and satisfactory trial of the Spectacles procured from you, and I have the pleasure to say that the glasses are better adapted to my eyes than any I have ever used. The facility with which you fitted the glasses to my eyes, furnished me conclusive evidence of your scientific skill in optics and your thorough experience as an Oculist.
Your attainments in your profession entitle you to the confidence, patronage and gratitude of the public. I have the honor to be,
Very respectfully yours,

I have examined a number of Professor Bernhardt's Glasses and am now using a pair of them, and take pleasure in testifying that they enable me to see better than any others that I have used, while in his collection there seem to be some adapted to remedy any kind of defect in vision.
THOMAS ATKINSON,
Bishop of North Carolina.

Nashville, April 27, 1867.

The difference between Dr. Bernhardt and most Opticians is, according to my observation, that while they pretend to more than they know, he knows more of his business than he professes.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have, and can show, thousands upon thousands of certificates of remarkable cures of the following complaints, but such cures are known in every neighborhood, and why should we publish them? Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Languor** and **Loss of Appetite,** they should be taken moderately to stimulate the digestive organs and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers,** they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa,** but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back** and **Loins,** they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus. There are numerous cases where a purgative is required, which we cannot enumerate here, but they suggest themselves to everybody, and where the virtues of this *Pill* are known, the public no longer doubt what to employ.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that it is unnecessary to publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

The Churches.—A series of meetings are being conducted at the Methodist and the Baptist Churches in this City, by the respective Pastors, and at both a fine religious feeling is being manifested. There have been a number of conversions, mostly among the young, and the number of seekers is daily increasing.

At the Methodist Church, on Sabbath last, eight persons connected themselves with the Church, and the rite of baptism was administered to four. There were others who would have been received into membership, but were prevented by sickness and other causes.

Baptism by immersion was administered to one subject, on Sunday night, at the Baptist Church, and others are expected to follow soon. The number of seekers at this Church is large.

If we comprehend the exhibit, there was for the months of June and July of this year an increase in the income of the Road of $8,617,00, over that of the same months last year; and a decrease of expenses for the same time, of $6,634,85. That is pretty well, if, in the meantime, the rolling stock and fixtures are properly kept up.

Schools in Chatham.—A friend to whom we are indebted for interesting news items from Chatham county, informs us that the Fall session of the Schools in that county have opened with flattering prospects.

Ruffin Badger Institute, Prof. Brantly York, principal, has about forty pupils.

Pittsboro' Scientific Academy in charge of C. B. Denson, Esq., has upwards of thirty.

Mount Vernon High Schools, Male and Female, under charge of A. J. Emerson, Esq., has about thirty-five.

Locust Hill Female Seminary, Rev. R. B. Sutton, principal, has about fifty young ladies in attendance.

The sessions of these schools have but recently commenced, and the number in each will be considerably increased.

Good News for the Afflicted.—Those who from advanced age or other causes have been prevented from using their eyes with ease and comfort, should embrace the earliest opportunity of calling upon Dr. M. Bernhardt, whose rooms at the Yarborough House has been visited by the *elite* of our city during his short stay. Dr. Bernhardt's reputation as a first class oculist and optician is second to none in this country or in Europe, while his elegant spectacles has done more to please and benefit the community than most people are aware of.—Unlike the ordinary style of glasses, his Brazellian Pebble and Australian crystals tend to soothe and tranquilize the eye, and a person very soon finds that he can use them for hours without the slightest fatigue whatever. Those who have had the pleasure of using them, assert that they are infinitely superior to anything of the kind they ever met with, and speak extravagantly in their praise.

There will be a meeting of the Hook & Ladder Company this evening at the Court House at 8 o'clock.

Both active and honorary members are reminded that tickets for the excursion to Morehead to-morrow, (Sept 1st) are now ready, and may be obtained of the Committee of Arrangements to day, at the North Carolina Book Store.

Interesting.—That must have been an exceedingly interesting "altercation," that took place near the Post Office, on Friday evening last, between "a citizen of this city," (Tom Alston, col'd) and "a private soldier of the 8th infantry," as the *Standard* keeps the report of the affair as "standing matter," in its local column.

The *Standard* in last Saturday's issue in referring to the annual meeting of the Stockholders of the Eastern Division of the Western North Carolina Railroad Company, with an air of triumph, calls attention to the fact that Ex-Gov. Vance and Judge Merrimon were excluded from the new Board of Directors, and it attributes this gratifying result to the action of Gov. Holden.—We have no doubt the Governor did all he could to accomplish that end, and that the whole *programme for* the election of the Board of Directors was *pre-arranged* and with a view to the exclusion of Vance and Merrimon from the Board. These gentlemen were *in the way* of Radical frauds and peculation and hence their exclusion.—If rumor be correct even the *Standard* would blush to tell *the means* by which the Governor and other interested parties brought about a result so desirable to them. We take it Messrs. Vance and Merrimon were not excluded on *political* grounds, for in their stead, two or, three *straight out, bloody*, original secessionists were elected.—But, perhaps, these gentlemen have gone to the Radicals. We would not be surprised if they had. The recruits to the Radicals are all from the bloody secessionists.

We have been learning of late of some strange things about the Western North Carolina Railroad Company, and its management, and we propose to ventillate that concern for the people's benefit. We would be glad to get a full and accurate account of the proceedings of the meeting of stockholders last Thursday, and such other information as the public ought to have. Will some one who attended the meeting favor us with the desired account?

What has been done with the appropriation of $80,000 to build a branch road of the Western North Carolina Railroad from a point near Catawba Station, on that road, to the *lime beds* of Drs. Powell and Mott, the latter the President of the Road, and the former a new Director? If we are not mistaken, the late decision of the Supreme Court saves that sum of money to the State.

Friends of Temperance.—Last night, Oak City Council of this flourishing young Order, held the first meeting in their new and elegantly arranged Hall, over the new store just finished by Mr. Holleman, at the corner of Fayetteville St. and Market Square. We learn that additions are constantly being made to the Friends, by which they are daily gaining strength and influence. Success to them.

Warren Court.—We learn that the criminal docket of Warren Superior Court closed on Saturday. Wm. G. King, (white) tried for forgery, was sentenced to two years in the Penitentiary. Four colored citizens were sent to the same place for eighteen months each on account of their love of pork. Our excellent District Attorney seems to have prosecuted very successfully, as there was only one acquittal out of a very heavy docket. The case that elicited the most interest was that of the five negroes, tried for burning John E. Boyd's carriage house for the purpose of burning his dwelling.

The civil docket, as usual in Warren, is short and was probably closed yesterday. The Bar was well represented.

State Educational Committee.—At the last meeting of the Chatham Educational Association, the following proceedings were had:

"The report of the Committee on calling a State Association was read, and the following resolution recommended therein, adopted:

Resolved, That a Committee of Arrangements of five be appointed by the President, to which the President shall be added as chairman, *ex officio*, to select the time and place for the assembling of a Convention of the teachers and other friends of education throughout North Carolina, to organize a permanent State Educational Association; with full power for such Committee to select speakers and essayists to address said Convention.

Upon this Committee were appointed Messrs. Jno. Manning, Jr., W. J. Palmer, Henry A. London, Jr., S. S. Ashley, and C. B. Denson.

The Committee met in the city of Raleigh, August 3, 1869, and after mature deliberation, fixed the place for the assembling of said Convention at Raleigh, and the time the 14th day of October, 1869.

All teachers and friends of eduction are cordially invited to attend.

How it Works.—Mr. W. A. Mehegan keeps a tobacco store, on Fayetteville street in Raleigh. He had two boxes of very fine tobacco, worth $2 a pound, on which the tax was regularly paid and the stamps attached according to regulations in force at the time. The tobacco was seized by the Revenue Collector under some pretext.—Mr. Mehegan had to procure evidence to establish the legality of the stamps and that the tax was paid; this he did, but it took six weeks. The tobacco was then released, but the Collector made Mr. Mehegan pay *seven dollars*, expense for the wrongful seizure. By the time the tobacco was released, the new regulations came into force, so Mr. Mehegan could not sell his tobacco without paying to have it stamped again. Now, if there was anything wrong about the tobacco, why was it released? If there was nothing wrong, why was the owner made to pay seven dollars expense for a wrongful seizure? There is *something* wrong about it.

Chatham Educational Association.—The Executive Committee, by a resolution passed at the last meeting of the Chatham Educational Association, were directed to fix the time of the next meeting of the Association. After mature deliberation, the Committee fixed the time on Friday October 1st 1869, at which time the Association will meet at Ruffin-Badger Institute, eight miles from Morrisville, a depot on the N. C. Railroad.

The hospitalities of the place are tendered to the members.

North Carolina New Cotton.—We have noticed the chronicling of several "first bales" of new cotton, in the newspapers, and it is difficult to decide, so *far* as our State is concerned exactly, who is entitled to claim the first bale.

On Saturday morning we had an account of a bale picked and packed on the farm of Mr. Jeff. Fisher, of this county, on Friday 27th of August, and sold in the city to Messrs. Upchurch & Dodd. This bale was shipped to Petersburg on Saturday morning.

Yesterday morning we noticed the arrival in Baltimore, on the 25th, of a bale of new North Carolina Cotton, consigned to Messrs. Hawkins & Williamson.

The Petersburg *Index* of Saturday, says the train from Weldon on Friday, brought into Petersburg, *two* bales of new North Carolina Cotton—the first in that market—from the plantation of Gen. W. R. Cox, in Edgecombe County, of which Mr. John R. Greene is the manager. They were consigned to Messrs. A. Martin & Co., and Rowlett, Tannor & Co., respectively.

A bale of new Cotton was shipped from Raleigh, yesterday, (Monday) morning, for Petersburg, from the farm of Dr. W. R. Miller, of this county, which was picked and packed on Saturday last. This farm is under the control and management of two colored Superintendents, Lewis Lindsey and Riley Green.

As the newspapers say, "where all have done so well, it would be invidious to draw comparisons." We chronicle, with pleasure, these evidences of life, activity, and emulation among the farmers of our State—they are highly encouraging, as signs of more prosperous times.

State Fair—Another Attraction—Grapes.—We are glad to learn that Col. Joseph S. Cannon, at the invitation of the President of the State Agricultural Society, will read a paper on "Grape Growing" during Fair week.

Col. Cannon is thoroughly versed in such subjects. He is co-proprietor and business manager of a large vineyard near Portsmouth, Va., and another near Wilmington, North Carolina.

Our people are much interested in the development of the grape culture, and the manufacture of wine, and will no doubt be vastly benefitted by listening to the counsel of Col. Cannon on such subjects.

Another Candidate.—We understand that there will soon be opened in the City another candidate for public patronage in the Family Grocery line. Our young and enterprising friends, Gully and Bynum have secured the elegant and conveniently situated Store on the corner of Fayetteville Street and Market Square, and one of them is now North for the purpose of selecting a stock of goods. The public will hear from them in a week or two.

We had a nice shower yesterday afternoon, which cooled the atmosphere wonderfully, and made linen coats and pants a little unseasonable. There was considerable wind with the rain and we notice several large limbs, and in one or two instances entire trees, blown down about the city.

To Test a Genuine $10 Bill.—Somebody says the genuine ten dollar bill has the figure "10" in the eagle's eye, in the centre of the bill—the 0 forming the pupil of the eye, and the 1 in the shading close by. The counterfeit has not this mark.

Wilmington Items from the *Journal* of the 29th:

Wilmington continues remarkable healthy.

Scuppernong Grapes have appeared in Wilmington, and sell at $1,50 to $2,00 per bushel.

Sea Island Cotton of fair quality has been raised the present season at Federal Point Sound near Wilmington.

Wilson T. Morton, recently elected J. P. of Columbia Township, New Hanover Co., arraigned for larceny a few days ago, has been hauled up again for stealing three sheep and a cow from one man, and seven sheep and two cows from another. He was one of Gov. Holden's appointees prior to the election.

The store of Phifer and Hampton at Statesville, was broken into last week and robbed of several articles of merchandise and money. Jeff. Houston, colored, has been arrested and lodged in jail under suspicion of being the robber.

The Fall term of the Superior Court for Iredell county, opened yesterday, Judge Mitchell, presiding.

Charlotte is in want of good pine lumber for building purposes, and the *Observer* proposes to remedy the difficulty by building a railroad to Lancaster.

A little son of Mr. Harvey Sossoman got his arm broke, in Rowan county, last week, by being thrown from a horse.

The Salisbury *Examiner* comes out for national and state repudiation. We should not be surprised that, "to that complexion it must come at last." We don't believe, however, that North Carolina will ever repudiate any of her properly and constitutionally contracted debts, but she has been saddled with some debts in which her people; those who must pay them if they are ever paid; had no hand and to which they never gave their consent.

The Asheville *Pioneer* says there is a gang of horse thieves infesting Western North Carolina. One of them, who gave his name as Watson, stole two fine mules from Mr. Milla Higgins of McDowell County, last week, was traced to Greene County, Tenn., captured, and the mules recovered. The thief was lodged in jail.

The Fall term of Wayne county Superior Court opened yesterday.

The Robeson county Militia have disbanded, without effecting anything worth mention, and peace reigns again along her borders.

Rev. A. D. Cohen has resigned the pastorate of the Baptist Church in Newbern, to take effect on the first of January next.

Steps are about to be taken to organize a co-operative Store in Wilmington. These stores have met with success wherever they have been established.

Lemuel Jones, colored, was committed for examination, in Wilmington, last Friday, on a charge of burning a barn on the place of N. N. Nixon.

Monday Evening Dispatches.

WASHINGTON.

Washington, Aug. 30.—Southern Radical Representatives and Senators are estopped in their clamors for removals by a rider to the appropriations of 1867, to bidding assessments for political purposes or removal from office for political opinions under penalty of removal from office of the person making exact ons or ordering removals.

Supervisor Stanwood, of Alabama, wants to send several of his Inspectors to the Penitentiary.

Chinese Minister Browne denies the reported rejection of the treaty, saying that final action on all treaties is deferred until Burlingame returns.

The *Law Times* publishes decision in the case of McLeod vs. Ca'coit, Treasury Agent, tried in the South Carolina Federal District Court, Chief Justice Chase presiding, to the following effect: "No Treasury Agent is justified in receiving much less than seizing property in Southern States after June 30, 1865."

Cabinet to-morrow with Boutwell, Hoar and Robeson absent.

Lady Thorn won a race of three heats—time 2,20½, 2,20½, 2,20½; fastest time on record.

VIRGINIA.

Norfolk, Aug. 30.—The British Bark "Ann Eliza," from Liverpool, for Baltimore, is ashore off Cape Charles, with ten feet of water in the hold.

White Sulphur Springs, Aug. 30.—George Peabody left this morning in a special car furnished by the President of the Baltimore and Ohio Railroad. His cough is almost entirely relieved and health much improved.

He stops in Baltimore and Philadelphia a day or two, and goes then to Massachusetts. Gen. Lee accompanied him as far as Goshen.

The old visitors here are leaving and new ones crowding in.

FOREIGN.

Paris, Aug. 30.—Twenty-two of the crew attempted to explode the American Steamer Sabine, a cabin boy extinguished a burning fuse leading to the magazine. Seven of the sailors engaged in the plot were hanged at the yards arm, the balance were placed in irons

Madrid, Aug. 30.—Topete takes temporary Ministership of the Colonies. Escallante made important death-bed disclosures respecting abuses in the Cuban army and navy.

MARKETS.

New York, Aug. 30.—Flour dull, 5 cents lower, Wheat quiet Corn firmer. Pork dull at 32 Lard quiet. Cotton quiet and firm at 34½ to 35. Turpentine 42. Rosin, strained 2,40.

Stocks steady. Money quiet at 6 to 7. Sterling long 9½; short 10; Gold 33½. 62's, 23½. Tennessee, ex coupon 61; new 53½ Va's 55; new 58½. La's old 71. Levees 65. Eights 84.

Monday Midnight Dispatches.

WASHINGTON.

Washington, Aug. 31.—The London *Times* says, much anxiety is felt in French society there in regard to the health of the Emperor. The excitement on the Bourse is intense. The *Times* has no wish to lay any great stress on the Emperor's sickness, but hardly believes the rumors are the result of stock stratagems.

Revenue to-day nearly one million.

Rowlins is working to-day.

The Navy Department has nothing relative to the mutiny and executions on the steamer Sabine.

PENNSYLVANIA.

Phœnixville, Aug. 30.—The boiler of the Phœnix Iron Company's works exploded to-day, killing twenty persons and hurting many others.

FOREIGN.

Paris, Aug 30.—The official report of the Emperor's condition grows more satisfactory.

London, Aug. 30.—The *Times*, to-day, in its report of the Manchester cotton trade, says, it is admitted that the returns of the sales of cotton at Liverpool were falsified every day last week. The figures really amounted to but little more than one half those given to the public, and as the result, there is something like a panic at Manchester, and for the present all confidence is lost in the truth of the returns from Liverpool. There is no disposition to do business either on the part of sellers or buyers.

FROM NEWBERN.

Newbern, Aug. 30.—First bale new cotton sold here to-day to Walker, Jones & Co., at 35 cents, and shipped to March, Price & Co., New York.

[Wake County beat you, neighbor; she had a bale in market last Friday, and another yesterday.—*Ed, Sentinel.*]

FROM WILMINGTON.

Wilmington, Aug. 30.—Weather cloudy, several heavy showers this afternoon, with indications of heavy rain to-night.

Special Notices.

Pretty Women. A comparatively few Ladies monopolize the Beauty as well as the attention of Society. This ought not to be so, but it is; and will be while men are foolish and single out pretty faces for companions.

This can all be changed by using Hagan's Magnolia Balm, which gives the Bloom of Youth and a refined sparkling Beauty to the Complexion, pleasing powerful and natural.

No lady need complain of a red, tanned, freckled or rustic Complexion who will invest seventy-five cents in Hagan's Magnolia Balm. Its effects are truly wonderful. To Preserve and Dress the Hair use Lyon's Kathairon. aug. 28. 1m

And $5,000 ready to pay a loss of No. 34,161, so soon as the party authorized to receive the money appears.

The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

Knickerbocker,	$16,54
Equitable,	17,44
North America,	21,16
Brooklyn,	21,09
Universal,	27,24
John Hancock,	18,27
The National,	63,48
The Ætna,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It issued more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 599 policies, received an income of seventy-eight thousand dollars, and possessed net assets summing up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13,357 new policies, more than any other Company, except the Mutual Life; received an income exceeding six million dollars, and had amassed solid, securely and profitably invested net assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."

The Daily Sentinel:

IN AN INEBRIATE ASYLUM—ANECDOTES AND INCIDENTS.

The September number of Lippincott's Magazine contains a pleasant article by Malcolm Macewen, entitled "A Week in an Aquarium," which gives an account of Dr. Parrish's Home for Inebriates in Philadelphia. We copy one or two passages, in which lively anecdotes are told:

"To exemplify the pleasant cordiality existing between the young men and the doctor, I should like to relate one or two occurrences that came under my own observation. Of one occasion an ex-inebriate felt somewhat disposed to indulge his appetite for stimulants. It would have been no hard matter for him to have gone off quietly and found a place where he could gratify his desire; thus, I must in candor admit, had been sometimes done, but very rarely—so rarely as to afford an additional argument in favor of the lenient system pursued at the Sanitarium. During my short stay there I saw or knew of no attempt at any such manœuvre. The young man went to the doctor and told him that he would like to have a drink, just as he would have gone to any other friend.—Now what did the doctor do?—Or, rather, what did he not do? He did not want to refuse the young man's request, and yet did not deem it advisable to grant it. To have followed the old example of many people, and taken advantage of the opportunity to deliver a long-drawn lecture on the glory of total abstinence and the abomination of intoxication, would have been, under the circumstances, equally stupid and inexpedient, the young man would probably have gone off, irritated, to the nearest grog-shop he could find, to poison himself with the 'kill me-quick' generally dispensed at such places. The doctor, with that tact which eminently fits him for the position he holds, *made the young man refuse himself* and deliver to himself his own moral lecture. Drawing the key of the liquor closet from his pocket, he put it on the table before the young man.

"'There,' said he, 'is the key; you may take it and get a drink if you wish to; but before you do so, as I am granting, you a favor, grant me one in return. I ask you to let that key remain on the table where it is for fifteen minutes. If, at the end of that time, after sober consideration, you think it would be beneficial to you to take a drink, go and get one.'

"The young man thought a moment and went away without taking the drink, while the doctor returned the key to his pocket, having not only gained his point, but—what was of far more importance—having retained the young man's confidence and friendship.

* * * "It should be borne in mind that in dealing with his guests the doctor had often not only to divert their desire to drink, thus insensibly, by cultivating a fondness for some harmless occupation, but that he was obliged in very many instances to contend with the pernicious effects of ignorance and maltreatment on the part of others. Young men came to him not sick, often not intoxicated—nor even particularly desirous to become so when they found that no harsh measures were employed to prevent them—but simply with their hearts frozen by the misjudged cruelty with which they had been treated elsewhere. Ah! how soon they thawed and warmed beneath sunshine! If I were asked in what the wonderful treatment at the Sanitarium consisted, I might answer that it consisted as much in the absence of maltreatment as in anything else. The young men were treated as sensible, intellectual beings, not as social outcasts.

* * * "Once a week, at the Sanitarium, there was a sort of informal meeting held in the evening in the billiard room.—The doctor would read or deliver extempore some remarks that he thought would interest his 'boys,' and then we could all express our own opinions. The conversation often turned, naturally, on the vice of intemperance, and the experience of every man in that room—the matter being discussed without any mawkish hesitation—would be different, showing that each case required a treatment particularly adapted to it. I may not here divulge much I heard that might interest the reader, for I must cautiously avoid saying anything to betray those companions who made my stay at the Sanitarium so pleasant. Much disgust was excited on one occasion, I know, by the arrival of a box or package directed to '*Dr. Parrish's Institution for Drunken Inebriates*,' and again by some individual going to the door of a hall where Ethiopian minstrels where in full blast, and inquiring if any of Dr. Parrish's *bloats* were in there."

RELIEF FOR THE LAZY.

Notwithstanding the great and unsatisfied demand for plantation labor in the South and the extraordinary prices demanded and allowed there for negro hands, the Chairman of the National Freedmen's Relief Association issues an appeal for the relief of the thousands of negro vagrants who throng the capital, fighting at election times and begging and stealing at all other times. The Chairman announces that there are no less than thirty thousand destitute negroes suffering for the want of the necessaries of life within the District of Columbia! What a condition of things such a statement reveals! It is shocking. The withdrawal of vast multitudes of blacks from the Southern fields of labor has of course operated very disastrously upon the interests of that section, but we might naturally expect that the people of the North, by whom the old system of black labor was broken up, would contribute freely to the temporary relief of the freedmen in their new situation. Well, how extensively has philanthrophy, in her Northern abode, given for the mitigation of the sufferings of the host of 30,000 perishing blacks upon almost the very verge of the North! The Chairman tells the thrilling story. During the last year the association has received from the North one barrel of onions and a few potatoes, the whole, onions and potatoes together, worth $13,50, and the supply has been impartially divided out among the neediest of the needy thirty thousand, whose thanks are expressed in proper form! Oh, Northern philanthrophy! Oh Radical love for the African race! how nobly thou exhibitest thyself in the distended eyes of an admiring world! Please, for the honor of human nature, keep up the godlike show!—*Courier Journal.*

Trustee's Sale.

THE UNDERSIGNED TRUSTEES OF John Devereux, Bankrupt, under the 43d section of the Act of Congress, March 2, 1867, entitled "An act to establish a uniform system of bankruptcy throughout the United States" will sell at the Court House door in the city of Raleigh, on the 1st day of September, 1869, the interest of the said bankrupt in a tract of land adjoining the city of Raleigh on the northwest corner of the same, bounded by the land of George W. Mordecai, the late R. M. Saunders and Henry Mordecai, containing one hundred and fifty acres, on which is a handsome brick residence, with all the necessary out-houses—subject to two mortgages in favor of George W. Mordecai: one for ten thousand dollars, with interest from January 1, 1867, and the other for five thousand dollars, with interest from February, 1867

Koskoo!

THE GREAT REPUTATION

Which KOSKOO has attained in all parts of the Country

AS A GREAT AND GOOD MEDICINE,

has induced Dr. Lawrence to ENLARGE HIS LABORATORY and FACILITIES for MANUFACTURING, so as to be enabled to supply the extraordinary demand for it.

THE LARGE NUMBER OF TESTIMONIALS which are constantly being received from Physicians, and persons WHO HAVE BEEN CURED by its use, is CONCLUSIVE PROOF of its REMARKABLE VALUE.

As a BLOOD PURIFIER, it HAS NO EQUAL,

BEING POSITIVELY THE

Most Powerful Vegetable Alterative

YET DISCOVERED!

DISEASES OF THE BLOOD.

"The life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many diseases, and like many popular opinions, this of bad blood is founded in truth. To say nothing of those humors that are hereditary, we can easily see how the Blood may become bad from imperfect Digestion or failure of excretion, and how this may influence the process of Nutrition, and thus influence all the functional activities of the body.

The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the soft tissues lose their tone and elasticity, and the tongue becomes pale, broad, and frequently covered with a pasty, white coat. This condition soon shows itself in *roughness* of the skin, then in ERUPTIVE and ULCERATIVE diseases, and when long continued, results in serious lesions of the Brain, Liver, Lungs, or urinary apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human family are effected with scrofula in some form.

Persons suffering from any bad humor are very liable to have it settle on the Lungs or some other vital organ. The only safe rule is to remove the Blood poison at once, before it settles itself upon some vital point.

When the Blood is pure, you are not so liable to any disease. Many impurities of the Blood arise from impure diseases of large cities. Eradicate every impurity from the fountain of life, and good spirits, fair skin and vital strength will return to you.

KOSKOO!

AS A

LIVER INVIGORATOR!

STANDS UNRIVALLED.

BEING THE ONLY KNOWN MEDICINE that EFFICIENTLY *stimulates* and CORRECTS the *hepatic secretions* and functional DERANGEMENTS of the LIVER, without debilitating the system. While it acts FREELY upon the LIVER instead of DOPING PURGING, it gradually changes the discharges to a PERFECTLY NATURAL STATE.

SYMPTOMS OF LIVER COMPLAINT AND OF SOME OF THOSE DISEASES PRODUCED BY IT.

A sallow or yellow color of the skin, or yellowish-brown spots on the face and other parts of the body; dullness and drowsiness, sometimes headache; bitter or bad taste in the mouth, internal heat; in many cases a dry, teasing cough; unsteady appetite; sometimes sour stomach, with a raising of the food; a bloated or full feeling about the stomach and sides; aggravating pains in the sides, back, or breast, and about the shoulders; constipation of the bowels; piles, flatulence, coldness of the extremities, &c.

KOSKOO!

Is a remedy of WONDERFUL EFFICACY in the cure of diseases of the KIDNEYS and BLADDER. In these affections it is as near A SPECIFIC as ANY remedy can be. It does its work KINDLY, SILENTLY, and SURELY. The RELIEF which it affords is both CERTAIN and PERCEPTIBLE.

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the structure and functions of the Kidneys cannot estimate the IMPORTANCE of their healthy action.

Regular and sufficient action of the Kidneys is as important, nay, even more so, than regularity of the bowels. The Kidneys remove from the Blood those effete matters which, if permitted to remain, would speedily destroy life. A total suspension of the urinary discharges will occasion death from thirty-six to forty-eight hours.

When the Urine is voided in small quantities at the time, or when there is a disposition to Urinate more frequently than natural, or when the Urine is high colored or scalding with weakness in the small of the back, it should not be trifled with or delayed, but Koskoo should be taken at once to remedy the difficulty, before a lesion of the organs takes place. Most of the diseases of the Bladder originate from those of the Kidneys, the urine being imperfectly secreted in kidneys, prove irritating to the Bladder and Urinary passages. When we recollect that medicine never reaches the Kidneys except through the general circulation of the Blood, we see how necessary it is to keep the Fountain of Life Pure.

KOSKOO!

MEETS WITH GREAT SUCCESS IN THE CURE OF

Diseases of the Nervous System.

Almost nine-tenths of our people suffer from nervous exhaustion, and are, therefore, liable to its concomitant evils of mental depression, confused ideas, softening of the brain, insanity, and complete breaking down of the general health. Thousands are suffering to-day with broken-down nervous systems, and, unfortunately, tobacco, alcohol, late hours, over-work, [mental and physical] are causing diseases of the nervous system to increase at a fearful ratio.

The symptoms to which diseases of the nervous system give rise, may be stated as follows. A dull, heavy feeling in the head, sometimes more or less severe pain or headache; Periodical headache, Dizziness, Noises or Ringing in the Head; Confusion of Ideas; Temporary Loss of Memory; Dejection of Spirits; Starting during Sleep; Bad Dreams; Hesitation in answering questions; Dulness of Hearing; Twitching of the Face and Arms, &c., which, if not promptly treated, lead to Paralysis, Delirium, Insanity, Impotency, Apoplexy, &c., &c.

CONCLUSION.

Suffering reader, do not think that because you have tried other remedies, you cannot be cured, but recollect that God, in His Providence, has not afflicted His children with pain and disease, without at the same time giving them something in the Great Garden of Nature that will cure them.

Have no hesitation in writing to me, and stating your case in full, and I will answer you promptly.
